Summer Race Series 1993

On saturday May 15th seven of our members turned out to start the 1st of six races. Two of the participants were new to the group and have decided to join the club, after a fun day on the water.

The first race was won by Tim Hall of Victoria on a MacGregor 26. They edged out Jack Hollister on *Regalos de Dios*, another MacGregor 26, by 14 seconds. On the second race Jack Hollister won on corrected time, with Charles Smithey on a US21 second, and Time Hall third.

Many thanks to Allen McClendon on *Mon Cher*, for being race committee chairman and committee boat. They also became the committee boat for the Tx Multihull Association, who raced with us on saturday. More on that later.

Many of you missed the start of our 1993 sailing season, but remember we are keeping results for

an end-of-season "over all" trophies. Even if you miss a weekend, you could still be in the running. Each series will have a "throw-out", allowing you to miss one race per series without loosing ground in the standings.

For the end of year results we'll have two "throw outs" over all 12 races. So if you were not at the May 15th races you can make all of the remaining and still be in the running. Either way its great fun and an ideal learning time.
